Sir:

The Office Action mailed September 28, 2004 requires Applicant to elect a single disclosed invention for prosecution of the merits. Applicant elects to prosecute claims 1-7 cited as invention I, drawn to a lifting apparatus. This election is made without traverse. The Action states that the distinction between invention I and invention II (claims 8-15) is that invention I does not require the particulars of an actuator or subcombination II. Applicant notes that dependent claims 4-7 each require an actuator.

Applicant amends the claims to include claims 20-23 which are a part of invention

I. No new matter is added.

Listing of the claims begins on page 2.

Remarks begin on page 6.
